

Rate Schedule Cover Letter

Happy New Year to all our TSP partners. I understand how time-consuming and involved rate filing is for you. To assist with comparing this year's rates and terms to last's below please find a summary of all changes:

- Increased VA peak origin service rate by \$2/CWT.
- Maintained all other peak and nonpeak rates the same as last year.
- Reduced destination service rates by \$3.87/CWT for dock deliveries to members.
- Reduced origin service rates by \$2.58/CWT for shipments originating from NTS.
- Added a \$2/CWT bonus on origin services when density exceeds 5.0.
- Clarified Syncada fees are only applicable to tariff-based charges, not single factor rates.
- Added a per crate minimum of \$100.00 per crate for our own crating services.
- Adjusted peak season end date to 9/30 in line with program performance period changes.
- Defined that claims liability limits can only be exceeded by TSP and agent agreement.

Thank you to our TSP partners for your business and 2024. We don't take the shipments you entrust to us lightly and will work tirelessly to make our mutual customers satisfied.

If you haven't worked with us before, please consider giving us an opportunity. We strive to be your prime agent in the markets we serve. If there are items in this schedule that you would like to discuss or if you ever feel there is an aspect of our service that could be better, please reach out to me directly.

INTERNATIONAL AGENCY AGREEMENT

Agent agrees to perform services described in items I and II below for Forwarder in accordance with USTC requirements. Forwarder agrees to terms and conditions described in items II, IV, V, and VI below. This agreement covers HHG (4, 6, & T) and UB (7, 8 & J).

I. ORIGIN SERVICES

- A. Performance of Pre-Move Survey.
- B. Origin packing at residence including materials and labor.
- C. Loading of Type II or Triwall containers at residence (if possible).
- D. Additional accessorial services at residence as necessary and when possible.
- E. Sealing, weighing, marking, and strapping of Type II or Triwall containers.
- F. Complete and transmit required shipment paperwork to Forwarder.
- G. Handle out containers to common carrier vehicles.

II. DESTINATION SERVICES

- A. Provide government approved storage facility for shipments requiring SIT.
- B. Handle in containers from common carrier vehicles.
- C. Deliver and unpack containers and contents at destination.
- D. Remove all shipment debris from destination premises at time of delivery.
- E. Complete and transmit required shipment paperwork to Forwarder.

III. COMPENSATION

- A. Forwarder agrees to compensate Agent as defined in the rate schedule.
- B. Syncada (US Bank) fees only applicable to tariff items not single factor rates.
- C. Forwarder will issue payment to Agent within 30 days of completion of services.
- D. Past due invoices are subject to 10% fee per month in addition to collection costs.

IV. CLAIMS LIABILITY

- A. Agent liability for damaged or missing items is limited to \$1.25 of pound per item or 1/4th of the claim liability, whichever is less.
- B. Agent total claims liability per shipment is limited to \$500.00 HHG and \$250 UB.
- C. Agent assumes no liability for water or mold damage barring gross negligence.
- D. Assertion of gross negligence does not void liability limit without agent agreement.

V. CONTAINER ACCOUNTABILITY

- A. Agent will respond to Forwarder requests for containers status and condition reports, but tracking of containers is Forwarder's responsibility.
- B. Containers will become Agent's property after 90 days if not re stuffed.
- C. Carrier must send a container accountability report no less that every six months.
